

**Welcome to the Fairfield Museum and History Center!**

The Fairfield Museum and History Center believes in the power of history, art and humanities to inspire the imagination, stimulate thought and transform society. We connect people around the complex history of Fairfield, CT and surrounding communities so that together we may shape a more informed future.

Our vision is to use history to strengthen community and shape its future. We believe the humanities and the arts are powerful platforms for examining and understanding the civic values and responsibilities of our democratic society. As a public forum for the process of shared

discovery, we celebrate and cultivate the elements that create and bind community: complex stories and artistic expressions from multiple points of view that explore the diverse legacies of our region.

The Fairfield Museum’s education programs include **Walking Tours, Gallery Tours, Primary Source Workshops, Living History, Outreach Programs** and tours of the **1750 Ogden House**, serving over 6,000 Pre-K – Grade 12 students, adult learners and educators from the region. Programs align with local and Connecticut language arts and social studies curriculum, the National Council for Social Studies C3 Frameworks, and reinforce Common Core goals.
